

Custom Android MP3 Media Player Application

Thank you for the opportunity to submit our proposal for the development of your Music Player Mobile Application.

Based on the requirements discussed, Minax Digital Pvt. Ltd. proposes to design and develop a modern, secure, and feature-rich Android Music Player Application with an intuitive user interface, efficient music library management, playlist creation, categorized browsing, and a dedicated Admin Panel for user management.

The application will be developed with scalability, performance, and future enhancements in mind.

Scope of Work Mobile Application (Android)

- ✓ Splash Screen
- ✓ Home Dashboard
- ✓ Music Library
- ✓ Songs
- ✓ Albums
- ✓ Artists
- ✓ Genres
- ✓ Folders
- ✓ Playlist Management
- ✓ Favorites
- ✓ Recently Played
- ✓ Search
- ✓ Audio Playback Engine
- ✓ Background Music Playback
- ✓ Notification Controls
- ✓ Lock Screen Controls
- ✓ Equalizer Integration
- ✓ Sleep Timer
- ✓ Hidden Music
- ✓ Backup & Restore
- ✓ User Settings
- ✓ Language Preferences
- ✓ Crossfade
- ✓ Gapless Playback
- ✓ Keep Screen On
- ✓ Pause on Headphone Disconnect
- ✓ Music Library Refresh
- ✓ Library Scanning
- ✓ Smooth User Interface

Admin Panel

A secure web-based Admin Panel will be developed for application administration.

Features

- Secure Admin Login
- Dashboard
- Registered Users
- User Details
- Active Users
- User Search
- User Statistics
- App Version Management
- Basic Reports
- Settings Management

User Features

- Automatic Music Scan
- Search Music
- Play Songs
- Pause
- Resume
- Next
- Previous
- Shuffle
- Repeat
- Seek Bar
- Album View
- Artist View
- Folder View
- Genre View
- Playlist Creation
- Playlist Management
- Favorites
- Hidden Music
- Sleep Timer
- Equalizer
- Background Playback
- Notification Controls
- Lock Screen Controls

Deliverables

Upon successful completion, the following will be delivered:

- Android APK File
- Complete Source Code
- Admin Panel Source Code
- Database
- Documentation
- Installation Guide
- API Documentation (if applicable)

Deployment

Included

- APK Build Generation

Not Included

- Google Play Store Publishing
- Apple App Store Publishing
- Server Deployment
- Domain Registration
- Hosting
- SSL Certificate
- Firebase/Cloud Services (if required)
- Annual Store Fees

Deployment services can be provided separately upon request.
